## Environmental Friendly Wood Chipping

Disposing Horticulture waste consume prolong time, robust men power and environmental unlikely effort from waste transportation.

Thus, we use mobile wood chipper on site chip the horticulture waste to compost and apply back on the base of the trees and shrubs.

Our proposed Wood chipper will be station on-site to convert horticulture waste to composite.

**Will cut to smaller pieces for big log which are over sizes for chipping machine.**

- Model – Zenoah SR3000-2
- Diesel operated portable wood chipper.
- Adjustable wood chip sizes range in between 2 to 20mm.
- Production capacity – 5m<sup>3</sup> per hr.
- Overall Weight – 1.35 ton
- Overall Width – 1.1 m
- Overall Height – 2m
- Limb-Diameter – Max 180mm
